-----

A change was made to the default user profiles for Service Tools (SST and DST). When the PTFs listed are applied those profiles are now marked as Expired if they are still using a default password.

I am on an AS/400 (IBMi) V7R1M0. I am able to sign on to QSECOFR profile but the password we had for SST was incorrect. Following the IBM instructions I found

This document explains how to reset the password for the QSECOFR Service Tools user ID.

The substring built-in function (%SUBSTRING or %SST) produces a character string that is a subset of an existing character string. This function can only be used within a CL program or procedure.

Descubra que diferencia a la turbidez del TSS y como ambos parametros son esenciales para evaluar la claridad y la calidad del agua.
